Diwali Celebration - Kindy

To make this celebration special and engaging for our little ones, we requested each child to bring one Diya (traditional Indian lamp) to school, which they had the opportunity to decorate with colours, glitter, and other decorative items. This activity aims to foster creativity and provide a hands-on experience for the children to learn about the significance of Diwali.

As a part of this celebration, we organized a special sweet sharing event where the children can enjoy their favourite sweets with their friends.

We requested parents to send in some delectable, child-friendly sweets with their children on the day of Diwali celebration. We made this occasion even more special by encouraging our children to share and care, fostering the values of friendship and generosity.
